Smart Choice Premium	N/A	N/A	N/A	N/A	\$5.00
Average Monthly Bill (\$)	\$92.55	\$100.93	\$109.30	\$91.51	\$96.51

Monthly Usage: 646 kWh

Rates are current as of January 1, 2020.

*This comparison illustrates the estimated electricity costs for a typical Schedule D (CARE) residential customer within the City of Lancaster with an average monthly consumption of 646 kilowatt-hours (kWh). This is based on SCE's 2019 climate zone data within SCE's Baseline Region 14 (which includes City of Lancaster) and published rates as of January 1, 2020.

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers and SCE customers that elect a Green Rate. The CRS is a surcharge to recover costs associated with power purchases made on behalf of customers prior to a customer's switch to a CCA or SCE Green Rate. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Electric Generation Rates (Price (\$) per kWh)

Electric Power Generation Mix*

Specific Purchases	SCE			LCE	
	SCE	SCE Green Rate 50% Renewable	SCE Green Rate 100% Renewable	LCE Clear Choice 35% Renewable	LCE Smart Choice 100% Renewable
